Having worked in the industry for over 15 years, running up the ranks of the camera department to my present role as camera and Steadicam operator.

The excitement of being a camera operator is the chance to collaborate with extraordinary individuals, intelligent crew and work on unique and absorbing subjects from voices of all kind. As well as the open mindedness to enjoy the unique challenges of all genres and the experience and respect in tackling all subject matter including subjects of a sensitive nature.

Whether it is a big budget production or creative independent my approach to my work is to have a positive outlook and making the best out of the resources at hand relying on the art of creativity than just the high tech equipment. But sometimes that is fun too.
